KELEMU LEYKUN

Software Developer

Addis Ababa, Ethiopia | +251-923525754 | Kelemu3509@gmail.com | linkedin.com/in/kelemu-leykun

PROFESSIONAL SUMMARY

Software developer with over six years of experience building web, desktop, and ERP-based applications using ASP.NET, Java, PHP, React, Vue, and Node.js. Hands-on experience customizing and deploying Frappe/ERPNext and Odoo ERP systems across HR, Finance, Manufacturing, and CRM modules for enterprise clients. Brings a Data Science background (Python, TensorFlow, Scikit-learn) to development work, building predictive and data-driven features into applications. Track record of leading development teams, designing RESTful APIs and microservices, and owning projects from architecture through deployment with Git, Docker, and CI/CD. Equally comfortable leading a team or working independently as a freelance developer.

TECHNICAL SKILLS

Programming Languages: Python, C#, Java, JavaScript, PHP, SQL

Web & Application Frameworks: Node.js, Django, Laravel, jQuery, React, Vue.js, ASP.NET Core (MVC), Entity Framework Core

ERP Platforms: Frappe / ERPNext, Odoo ERP

Databases: Microsoft SQL Server, MySQL, MongoDb, Sqlite, Oracle, RDBMS design

DevOps & Tools: Git, Docker, Kubernetes, CI/CD, Redis caching, Vercel, IIS, XAMPP, WAMP

Architecture & APIs: RESTful API design, microservices, system analysis and design, UI/UX design

Testing & QA: Unit testing, system testing, test automation, software quality assurance

Data Science & Machine Learning: Statistical analysis, machine learning, deep learning, predictive modeling, data visualization, TensorFlow, Scikit-learn, Power BI

Methodologies: Agile, Scrum, DevOps, project management

PROFESSIONAL EXPERIENCE

Team Lead, Application Development

Guba Technology | Addis Ababa, Ethiopia | Jul 2025 - Present

- Lead a development team building enterprise applications on the Frappe ERP frameworks.
- Delivered 5+ complete ERP implementations covering HR, Finance, Manufacturing, and CRM modules, plus custom field-specific applications, for clients.
- A multi-tenant Point of Sale (POS) application and ERP integration.
- Build offline-capable front-end interfaces with React and Vue, backed by a Node.js API layer and Redis caching for performance.

- Design and secure RESTful APIs, including authentication and vulnerability checks.
- Own version control (Git), containerized deployments (Docker), and CI/CD pipelines for the development team.

Freelance Software Developer

Self-Employed | Addis Ababa, Ethiopia | Oct 2016 - Jun 2025

- Designed, built, and deployed a job aggregator web application on Vercel, growing traffic to 100+ visitors per day.
- Built a resource-sharing web platform for Ethiopian higher-education students, supporting GAT exam and Exit exam enrollment materials.
- Developed an Odoo GUI builder that lets users create Odoo views and models with drag-and-drop tools, giving teams a free, easy-to-integrate alternative to Odoo Studio (on progress).
- Built and deployed an offline grade-report generator application, adopted by multiple colleges across Addis Ababa and other Ethiopian cities.
- Delivered offline library cataloging systems for two institutions, Bule Hora High School and Bule Hora University, and received formal recognition for the work.
- Took on contract development work in ASP.NET Core (MVC) and Entity Framework Core for private clients.
- Advised 20+ students on final-year software projects as an independent technical mentor.
- Partnered with university researchers on data science and machine learning projects, contributing to data analysis and model-building work.

Junior Application Developer and Administrator

Dilla University | Dilla, Ethiopia | Sep 2015 - Jan 2017

- Built web and desktop applications using ASP.NET C# (Entity Framework, MVC) for the university's digital infrastructure.
- Developed dynamic web applications with PHP and Laravel, improving user experience and functionality.
- Used JavaScript, CSS, and jQuery to build interactive, responsive front-end interfaces.
- Deployed and maintained applications across IIS, XAMPP, and WAMP server environments.
- Managed and maintained databases across Microsoft SQL Server, MySQL, and Oracle, ensuring data integrity and security.
- Conducted system testing and applied project management practices to keep delivery on track.
- Designed and implemented a property management system for Dilla University.

EDUCATION

MSc in Data Science

Bule Hora University, Bule Hora, Ethiopia | Sep 2023 - Jun 2024

- Graduated with a CGPA of 3.93; thesis rated “Very Good.”
- Researched a venue recommendation model using deep learning techniques.

BSc in Information Technology

Debre Markos University, Debre Markos, Ethiopia | Oct 2012 - Jun 2015

- Graduated with a cumulative GPA of 3.59.
- Built a web-based tutoring and academic advising system for the final-year project, ranked among the top five projects in the department.

CERTIFICATIONS

- Data Analysis Fundamentals (Nanodegree) — Udacity, September 2024
- AI for Medical Diagnosis — DeepLearning.AI via Coursera, July 2022
- Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning — DeepLearning.AI via Coursera, February 2022
- Cloud-Based Test Automation and Mobile Testing (Webinar) — Dilla University, April 2016
